

BIDIRECTIONAL WOODGRAIN DOORS

BIDIRECTIONAL WOODGRAIN DOORS

The *beauty & style* of handcrafted wood panel doors without the high maintenance. North Central Door is pleased to offer three bidirectional woodgrain finishes, giving a realistic, luxurious look.

AR-II in walnut with optional hardware

WOODGRAIN DOOR DETAILS

- Available in Walnut, Medium Oak and Golden Oak, these finishes simulate an authentic wood panel constructed door with contrasting woodgrain patterns between stiles and panels.
- Bidirectional finishes are available on the Forest Bay Collection (except flush panel doors) and Aspen Ridge thermal models (AR-138, ARL-138, AR-II, ARL-II, AR-III & ARL-III).
- Five long panel window options & seven short panel options are available in each color.
- Stucco embossment provides a textured appearance without diminishing the woodgrain accents.
