

NORTHWOODS PRESTIGE COLLECTION

SR-82 in white with stockton windows & optional hardware

Nothing says *Welcome Home* like our Special Reserve doors.

SPECIAL RESERVE

We've taken the timeless beauty of carriage house garage doors and combined it with the latest in design engineering to create a door that will be as durable as it is beautiful.

With six distinctive styles, three classic colors and your choice of windows, you'll be able to create the perfect look to complement your home's architectural style and make it uniquely yours.

SR-81 in sandstone with stockbridge windows

What makes the Special Reserve Collection a step above the rest is our craftsmanship. Created from our popular TF-138 or TF-II thermal doors, we add a decorative overlay to create a genuine carriage house look. Made of 26-gauge steel, our doors are durable to the core. Insulated to keep your home thermally efficient year round, the unique thermal barrier helps guard against the elements. And, our quality finishing process creates a clean look on the inside as well as the outside using a two-coat polyester paint finish for maximum durability. The result is a maintenance-free door with a classic look that's all your own.

SPECIAL RESERVE

NORTHWOODS PRESTIGE COLLECTION

SR-81 in white with stockbridge windows & optional hardware

With classic beauty, durability and thermal efficiency, your home will be
The Talk of the Town.

Available in 1 3/8" & 2" models.

Door Details

- 1-3/8" or 2" insulated steel flush sandwich door with decorative overlay.
- Wood grain embossed, hot-dipped galvanized steel is pre-finished exterior and interior then coated with baked-on polyester primer and acrylic finish.
- Polystyrene insulation bonded to 26-gauge steel skin providing thermal protection to the edge of each section.
- White interior steel for a finished look on the inside of your garage.
- Uniquely designed tongue & groove section joints create weather-resistant seal against rain, snow and wind.
- Durable PVC seals provide a continuous thermal break on all section joints, reducing thermal transmissions.
- 18-gauge hot-dipped galvanized stiles are carried the full height of the sections providing superior strength and durability compared with commonly used hinge pads.
- Heavy-duty "U" shaped bottom weather seal helps protect against elements.
- Hinges are 14-gauge, hot-dipped galvanized steel for lasting durability.
- 10-ball rollers standard.

Optional Features

- Decorative hardware-stamped steel/black powder coated
- Keyed or Slide Lock Set
- Wind Load Certification - in accordance with ASTM-E330 & ANSI/DASMA 108-2002

Please Note:

If painting your Special Reserve door, use a latex paint with a light reflective value of more than 36 and no darker than sandstone. Failure to follow these guidelines may result in significant damage and will void warranty.
